WAREHOUSING/CONSOLIDATION

Solar Base Cargo offer a full range of warehousing and distributions.

LAND TRANSPORTATION

Transportation of your shipments to your place locally.

AIR FREIGHT

We offer import and export freight services and have a global coverage for air shipments handling, through our most dependable office network and trustworthy international partners around the world. With the space reserved on the world's leading cargo and commercial airlines, we provide maximum flight flexibility and a complete schedule of delivery options for international requirements.

SEA FREIGHT

Solar Base Cargo provides ocean services at most competitive rates for FCL & LCL shipments to and from any point of the world through our extensive and most superior network of Global offices and equally responsible worldwide agents. Our sea cargo services are sure to meet all your needs of shipping huge volumes on time and at the most economical price. We also have the best logistics & ware housing services that ensures smooth & safe delivery of the consignment.

CUSTOMS CLEARANCE

Solar Base Cargo will undertake activities like, liaising with the shipping lines/ DNATA, collection of delivery order from the lines, processing the customs documents for Import and Export, arranging transport for inward and outward movements, attestations and legalization of documents as and when required for exports and any other activities. We also address all the clearance formalities including Port and Customs fees and other Official charges.

FAIRS, EXHIBITIONS & EVENTS

To enhance our growth further and to reach a wider section of the trade, our Exhibition Logistic Department was launched. We believe that the combination of our diverse business, our connections with various freight agencies, custom brokers worldwide and the support of our associated companies make us a “One Stop Shop” for our customers. The Exhibition Logistics Service is an exclusive division within the Company to cater to the full requirements of the Exhibitor and organizers. We provide total logistics support for trade fair organizers and exhibitors to ensure that the exhibits are delivered to the venue on time and in perfect condition prior to the opening of an event. We also offer reverse logistical support at the end of an event.

Our comprehensive service package includes

- Exhibits Management
- Freight Management – Air & Sea
- Processing of Customs documentation
- Payment of statutory Port/Airport charges
- Storage prior to Exhibition
- Transportation/Delivery to Exhibition site

FAIRS, EXHIBITIONS & EVENTS

- On-site handling at Exhibition site
- Removal and storage of empty cases
- Reposition of empty cases at close of exhibition.
- Collection/Transportation to Port/Airport/Storage area
- Processing of re-export documentation
- Processing of duty refund applications
- Payment of statutory Port/Airport charges
- Labour hire and 3-ton forklift charges
- On-site supervision by our representative

The Exhibition Logistics service is managed and handled by a professionally talented team having more than 25 years of experience in exhibition handling and is supported by 250 professionals across its operating units. Our vast and comprehensive network offers customers full confidence when shipping to a venue in any destinations. The hallmark of the Exhibition Logistics service is in consistently servicing its customers effectively. Each team member takes personal responsibility for every single transported and stored package, ensuring high levels of accountability and consistency, and most importantly, excellence in client serving.

We serve to care!

WAREHOUSING

Solar Base Cargo offers a full range of warehousing and distribution functions to truly provide value added logistics and on-forwarding services such as:

- Distribution assortment
- Cross-docking
- Storage
- Order handling
- Dispatch by air, road and sea

CARGO PACKING

We are a prominent manufacturer of Wooden/Carton Box. Other types of packing services provided include:

- Crate packing
- Palletization
- Skid packing
- Stretch wrapping
- Crating

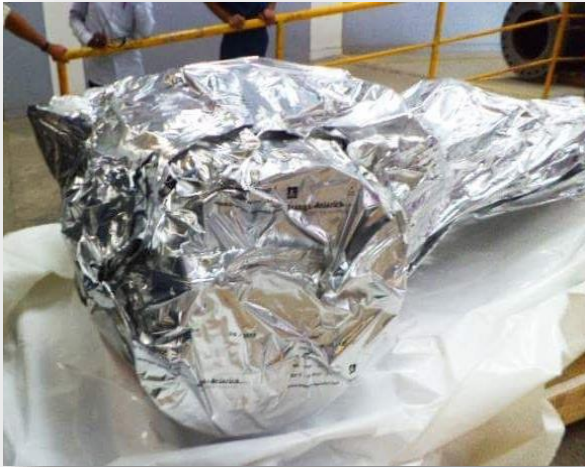

The packing process undergoes stringent quality tests in order to meet the required quality standards. Right from sample approvals to final dispatch, our products are checked in order to ensure their quality.

Some bespoke cargo packing projects handled by Solar Base include:

Horizontal Packing

Tall cargo that needs to be air-freighted sometimes has to be laid on its side for airplane cargo hold access; we can provide custom skids and additional protection for the same.

Vacuum Packing

Certain shipments have to be stored for long periods and/or in places with severe temperature fluctuations. We have vacuum rolls in store that can be molded to fit any shape.

Multiple Access pallet jack entry

Certain warehouse size restrictions require free movement of cargo without rotational stresses, we manufacture pallets with all sides access without compromising on the regular industrial-grade strength

ISPM-15

Many ministries around the world insist that all wood packaging that enters their ports have wood heat-treated to ward off against pests. We can include this service to provide you a comprehensive project portfolio.

Single / Multiple doors

Customs requirements, especially cargo shipped through road, require easy opening / closing of boxes, without the need to dismantle the complete packing. At times customers require only certain cargo in the boxes, ex Accessory boxes, we can provide hinged door access to meet these specific needs.
